THE INCUBATOR

FEB.05 -
MAR.19,2022
AT TRANSFORMER

Very Sad Lab: *The Incubator*

February 5 – March 19, 2022

The annual season of groundwork is upon us, and winter is the perfect time to prepare for new plant parenthood. Join Very Sad Lab's plant *Incubator* at Transformer for a living, growing site-specific installation, resource lab, and series of pre-plant-parent programs for what to expect when you're expecting.

Proceeding from an intersection of art, science, ecology, and horticulture, Very Sad Lab seeks to create a greener DC by connecting people to nature through plants. Through ongoing plant rehabilitation and research, Very Sad Lab is building long term relationships between plants and people that are rooted in intentional practices of attention and care of plants.
